ABOUT US

Complete, Reliable Plumbing Solutions

SEIPL, Sheetal Environs (India) Pvt. Ltd. has been a leading player in its core field of plumbing since inception in 1980. Active majorly in Mumbai & Navi Mumbai region, SEIPL has distinguished itself through the high standard of service and the level of expertise it provides to its esteemed clients.

Our engineers and technicians are highly trained and up to date with the most current technologies, tools & processes when it comes to plumbing and will provide the best-in-industry services whether it is consultation, handling, liaising or supplies.

We are meticulous in our approach to all types and sizes of projects and place equal weight of consideration on all jobs, be it a single unit, a commercial complex, mall, railway station, school, college, sports complex, hotel, hospital, industrial unit or a high-rise apartment tower. As a unit, we can boast of a huge wealth of experience in all aspects of plumbing on domestic, commercial and industrial levels.

Although we specialise in commercial and residential plumbing services, we also have experience and expertise in various related areas of water supply, drainage and stormwater handling.

Our efficiency and quality of work on site are second to none and through this dedication and fine attention to detail, we have made a strong reputation for SEIPL as an economical, reliable & effective name in the field of plumbing.

We are registered with:

- Brihanmumbai Municipal Corporation (BMC)
- Navi Mumbai Municipal Corporations (NMMC)

Lifetime members with:

- Indian Plumbing Association (IPA)
- Brihan Mumbai Licensed Plumbers Association (BMLPA)

EXPERIENCED PLUMBING SPECIALISTS & TECHNICIANS

In the nearly four decades of our operations in and around Mumbai / Navi Mumbai, we have become widely recognised as providers of plumbing services of international standards. We provide turnkey solutions for projects of all sizes and are actively involved in each task in our hands with utmost dedication. The organisational and executive prowess of our team is second to none and we take great pride in our ability to adapt and apply ourselves to any given project.

We have, amongst us, world-class professionals who ensure a very high level of workmanship. The quality of our work speaks for itself in every project, be it commercial, industrial or residential. What also sets us apart from the rest in the field is the extensive documentation of all the work and the administrative process which we carry out. This is not a task that is for any particular client's requirement, but an integral part of our standard project delivery procedure.

DESIGN & CONSTRUCTION

At SEIPL, we have the intent and the resources to provide a comprehensive design service for plumbing infrastructure. Our design team and consultants who specialise in plumbing solutions can develop a viable, efficient & timely solution for every project. Our clients are completely apprised of the whole scope of the work even before actual execution. This enables a smooth workflow of the project once work begins and avoids ambiguity and delays.

SCOPE & COST PLANNING

In an industry as cut-throat as commercial construction and property development, we are acutely aware of the need for a meticulous Scope & Cost Planning when it comes to tendering for work. We are very competitive when it comes to budgetary considerations. Over the years, we have developed an extensive network of reliable suppliers and contractors. Our professional relation and repeated dealings with these vendors results in us having a huge leverage with them in terms of pricing. We pass these benefits on to our clients in the form of the most cost-efficient solution for their project possible.

MAINTENANCE AND INSPECTION

SEIPL can provide inspections, suggestions, solutions and maintenance of plumbing works throughout the project work and after the completion of construction works.

We also provide a complete plumbing service to commercial entities, including hospitals, restaurants, schools, sports complexes and offices in general.

When one of our professional plumbing technicians carries out an inspection of your premises, we walk you through your premises and are able to identify potential hazards and areas where maintenance is required, and hence recommend mitigation techniques to maintain your plumbing infrastructure.

OUR PEOPLE, OUR STRENGTH

Our human resource is our biggest asset and we ensure all our engineers, technicians, plumbers and even the helpers are at par with their international counterparts in terms of the latest in technology and techniques through regular upgrading training & courses.

We are also always upgrading our tools & processes to keep up with the times.

Our workforce is not only imbued with a strong sense of efficiency & diligence but also informed in best practices and application of the most stringent safety measures.

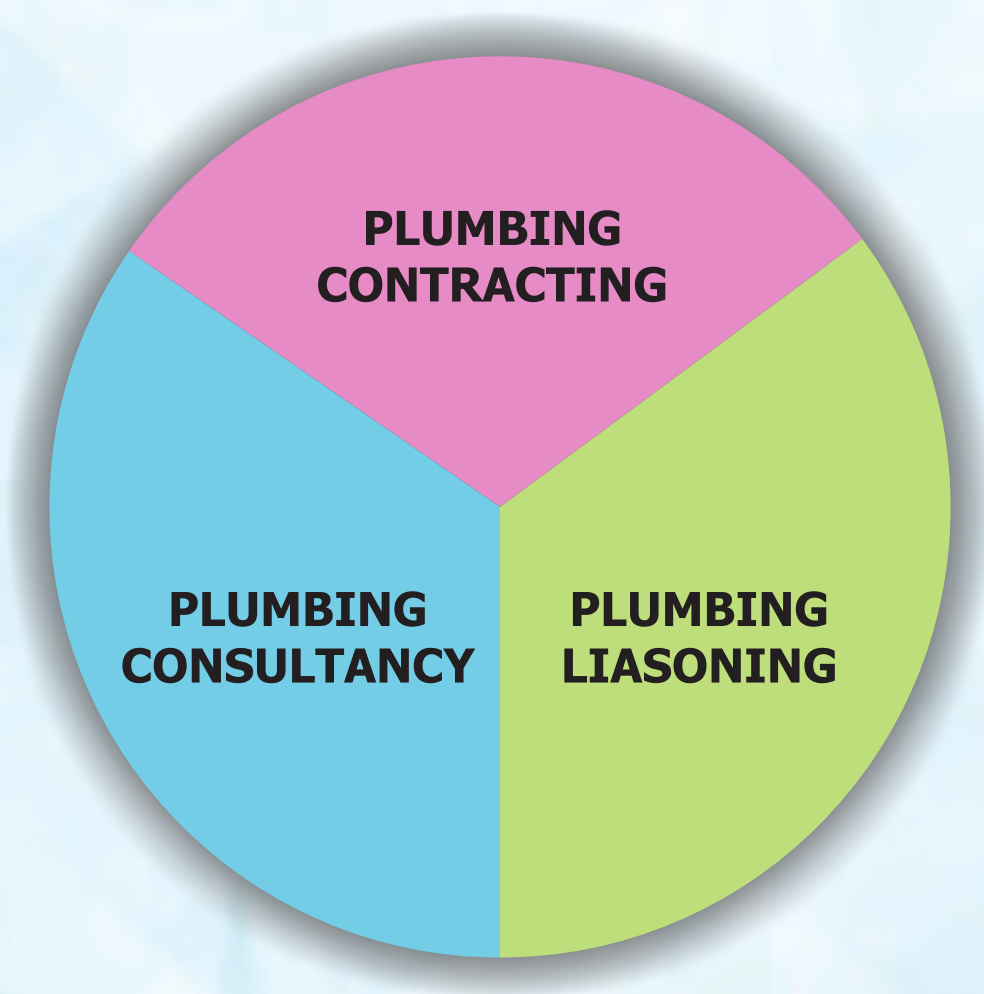

OUR QUALITY POLICY

We are committed to meeting & exceeding customer expectations while maintaining high business ethics and deep respect for the environment. We shall ensure compliance to regulating norms and adhere to the highest standards of on-site safety for the benefit of one and all. We shall always be on the lookout for innovative ways to satisfy customer requirements by upgrading ourselves continually to the latest technological developments in our field of work. We always aim to complete all projects well within the set time lines.

OUR MISSION STATEMENT

We are an organisation focused & customer-centric in our approach to all aspects of our work and shall ever strive for continuous improvement in our services by providing cutting-edge solutions using premium quality products with efficiency and fiscal competency that is at the pinnacle of the plumbing industry. We recognise our clients as the driving force of our organisation and will always provide them with the best we can.

About Director

Ashok G. Sheth
Founder and Managing Director

Shri. Ashok G. Sheth is a civil engineer and has over 40 years of experience in plumbing consulting and contracting business. Under the banner of Sheetal Environs India Pvt. Ltd. (formerly known as Sheetal Enterprises), he has successfully executed more than 300 projects across Mumbai and Navi Mumbai. Through the 80s and 90s, his vast knowledge of techniques and skills in the field of plumbing had helped him working with renowned clients' and successfully completing many prestigious projects. This has laid the foundation of our clients' trust and confidence in our organisation's flawless project execution capabilities.

Sourabh A. Sheth
Executive Director

Coming on board in early 2016 as Executive Director, Sourabh A. Sheth is responsible for business expansions as well as managing projects and finance of the company. Sourabh A. Sheth holds a Master's Degree in Management Studies from Mumbai University. He has worked for UBM India and was responsible for leading Business Development initiatives for the organisation. Sourabh A. Sheth is a green belt in Six Sigma techniques and before joining the firm, he also acquired a Diploma in Plumbing Studies from Alison University (UK). Employing strong and dynamic leadership, he has expanded the region of business and consolidated our position amongst the top firms.

Listed amongst the Top 120 talents of India by India Book of Records in 2011 and a holder of many records in the India Book of Records and the Unique Book of Records, Sourabh A. Sheth is all set to take SEIPL to the next level under his leadership.
